DI Exchange Tanks

DI Exchange Tanks are now available from 8" through 14" in diameter, along with 36 x 72 Jumbo DI Tank. All tanks are natural in color.

DI Exchange Tanks are equipped with either a heavy duty rubber base or plastic base and rubber bumper. See chart below for tank and base options. The protection bumper wraps over the dome/side wall transition providing superior dome protection during handling. The polyethylene (HDPE) liner is surface treated to ensure complete adhesion of the resin/glass matrix with the HDPE liner. The liner is also wound with an extra helical winding layer to provide a robust construction for protection against frequent loading and unloading of the tank during transportation. Is is a perfect tank selection for portable DI application.

ORDER NUMBER	TANK SIZE	VOLUME			TOP OPENING	BASE	QTY/CTN
		CU. FT.	GALLONS	LITERS			
C60844N62E01DI	8 x 44	1.13	8.48	32.10	2.5"-NPSM	Plastic	1
